

TLD Knowledge Base

On this page you will find important details about all TLDs offered by InterNetX. For each TLD, in addition to geographical, political and language assignments, all functions that support the TLDs are listed.

To display the information for a TLD, enter the name of the TLD in the "TLD search" field. If you want to compare several TLDs, separate the TLDs with a comma without spaces. You can restrict the search using the filters "Category", "Continent", "Other" and "Supported functions".
